“The above goods passed inspection and quarantine conformity assessment and were released for customs clearance.”

Scope and limitations

This is a Dogevera-issued summary of the referenced documentation. It is not a government certificate, laboratory test report, or certified translation. It does not independently verify species identity by DNA analysis, nutrient composition, or contaminant levels. Separate laboratory reports should be used for those claims.

The original Chinese-language source document remains the authoritative record. No claim is made that this statement was issued, certified, approved, or endorsed by Chinese Customs, FDA, SGS, or any other government or testing authority.
